Assignment No-2

Name : Sakshi Pralhad Patil

Batch : 3

Class : CS-B

Roll No -82

PRN : 12320152

Q. Write a simple "Hello word " program in LEX/FLEX.

```
%{
#include <stdio.h>
%}

%%

%%

int yywrap() {
    return 1;  // Return 1 to indicate the end of input
}

int main() {
    printf("Hello, world\n");  // Directly print "Hello, world"
    return 0;
}
```

Output :

```
C:\Users\Student\Desktop\CD>flex hello.l

C:\Users\Student\Desktop\CD>gcc lex.yy.c

C:\Users\Student\Desktop\CD>a.exe
Hello, world
```
